 - All products are either crated or blanket wrapped. Crates – failure to open and inspect crates at time of delivery null and voids any concealed damage claim. Blankets – all blankets remain with carrier therefore inspection at time of delivery must occur.
 - Unless damage is noted on POD, no concealed damage claims will be considered.
 - Warehouse delivery – our drivers will wait for proper inspection and load signoff. We support driver wait time as a procedure to eliminate later claims of concealed damage. Extreme wait time charges will be chargeable to consignee.
- STORAGE**
- Prismaticque's facility is unable to store finished orders. Orders must ship on scheduled ship date and customer must coordinate local storage arrangements.
- WARRANTY**
- All standard products manufactured by Prismaticque are warranted to be free of material and workmanship defects for five years from the date of delivery. Warranty is non-transferable and applies to original purchaser only. Prismaticque will replace or repair (at our discretion) without cost to our customers any item found to be defective due to materials or workmanship. Prismaticque retains the right to decline repair or replacement of items that have been abused (including exposure to climate variations in temperature or humidity) or subjected to any use other than that which was originally intended for our product. Any repairs by the customer must be pre-approved by Prismaticque or warranty is voided. In no event shall liability under this warranty exceed the original purchase price.
 - The following exceptions are included in the above warranty:
 - a) Customized products – any item deemed "custom" will not qualify for full warranty. Limited warranty may be available but must be negotiated prior to order acceptance and clearly stated on the order. If Prismaticque agrees to supply an uncommon tabletop material, we will follow all related manufacturer published instructions but as these materials are often not recommended for large, horizontal surfaces inspection must take into account the inherent nature of the material. Warranty for such materials must be negotiated prior to order acceptance.
 - b) Natural Stone – It is common practice to use fill techniques to conceal small, random natural blemishes in a natural stone surface. We follow industry standard procedures and finishing techniques to address these aspects that are inherent in natural stone and beyond our control. Such blemishes do not represent a defective surface.
 - c) Painted Back Glass – As a third party manufactured material, glass can include some inherent imperfections (eg. small scratches, blemishes and/or dirt particles) often located within the layers of the glass. The degree of visual impact once painted can vary based on location and color selected. We strive to minimize this presence on our finished tabletops but because it is the nature of glass, these imperfections may appear but are not considered a material defect and therefore not subject to replacement under warranty.
Due to inherent properties in large glass table surfaces (3 + sections) especially matte glass surfaces, slight color variance between sections may occur under certain lighting conditions. This condition does not represent a defective surface.
 - d) Electrical components – warranty limited to one year from date of delivery;
 - e) Functional Mechanisms – warranty limited to three years from date of delivery;
 - f) Plastic Laminates – warranty is covered by specific laminate manufacturer, not covered under Prismaticque warranty;
 - g) Wood Veneers / Finishes – the natural variations of wood are beyond the control of Prismaticque and are therefore not considered defects under this warranty. All veneers are carefully selected for uniformity of color and grain. Light finishes do not mask the characteristics of most wood species; often pieces of the same wood product will not look matched. The natural color of lightly stained veneers also causes variations in the overall appearance of the products.
- REASONABLE INSPECTION**
- For purposes of product warranty no claims will be considered without adherence to reasonable inspection. This includes but is not limited to:
 - a) Normal office lighting conditions. This includes overhead ambient lighting of all types but does not include unfiltered high level, side natural light.
 - b) Arms length distance. Inspection distance must be reasonable.
 - c) Timely inspection within one day of final assembly/installation.
